

Nepal NID — Official Circulars & Operational Guidelines

Department of National ID and Civil Registration (DONIDCR) | Ministry of Home Affairs

Source: nid_circulars.pdf (DONIDCR official circulars) | Language: English | Topic: NID Operational Guidelines, Circulars, Staff Instructions | Version: 1.0 | Last Updated: May 2026

This document summarises the key operational guidelines issued by DONIDCR to all District Administration Offices (DAO) and Area Administration Offices (AAO) regarding NID enrollment, data quality, and service delivery.

1. Data Entry Standards

[CHUNK_TAG: nid_circular_001 | topic:data_entry_standards | source:nid_circulars]

Original citizenship required: Collect data only based on original, legible citizenship certificates. If citizenship shows spouse's name, use that. If not, collect marriage certificate or relationship certificate to establish spouse's name.

Address discrepancy: If the applicant has migrated, use their migration/relocation certificate to record the current permanent address. For married women, record the husband's permanent address as per current law.

Mandatory document scanning: All documents submitted by applicants must be scanned and uploaded to the system.

Photo standards: Clear face and both ears must be visible. Sindur, Tika, and identity-related cultural markers are permitted. Cosmetics, hats, caps, burqa, and heavy jewelry are NOT permitted.

Service to other districts: Citizens from other districts must also be provided NID services at any DAO/AAO office.

Unclear details on citizenship: If details are unclear, use CIMS / citizenship records to verify before data entry.

2. Weekly Progress Reporting

[CHUNK_TAG: nid_circular_002 | topic:progress_reporting | source:nid_circulars]

For applications that are in 'NIN in progress' status, offices must prepare a weekly Excel report containing: NIN No., Request No., Father's Name, Date of Birth, Citizenship No., Issue Date — and email it to: nid@donidcr.gov.np.

3. Technical Support Contacts (Provincial)

[CHUNK_TAG: nid_circular_003 | topic:technical_support_contacts | source:nid_through_mothers_citizenship]

Province	Technical Officer	Contact Number
Koshi	Bishwas Ghimire	9845802892
Madhesh	Rabinesh Kumar Jha	9845802891
Bagmati	Sajan Nyaupane	9845802893
Gandaki	Sundarlal Sah	9845802894
Lumbini	J. Dongol	9845802869
Karnali	Basu Pradhan	9868486898
Sudurpashchim	Bal Krishna Prasad Bhatt	9845802890

4. NID Card Issuance to Applicant — Procedure

[CHUNK_TAG: nid_circular_004 | topic:card_issuance_procedure | source:nid_circulars]

When a citizen comes to collect their NID card:

- Verify the applicant's identity using their application form, citizenship certificate, mobile SMS, or any other identity document.
 - Confirm biometric match in the system (photo and biometric data).
 - Issue the NID card only after biometric verification is confirmed.
 - Notify the citizen of their NIN via Citizen Portal or SMS within 1 day of data registration.
-

5. Offline Data Entry (When System is Down)

[CHUNK_TAG: nid_circular_005 | topic:offline_data_entry | source:nid_circulars]

If the network or computer system at the enrollment station is offline, data entry operators can proceed with offline enrollment:

- Use the QR Code from the applicant's pre-enrollment form — scan with QR Code Reader to populate the data fields.
 - Complete the biometric capture offline.
 - Data will be synced to the central system once the network is restored.
 - QR Code Reader devices are provided by DONIDCR — offices can request them if needed.
-

6. Citizens Data Update — Mandatory Rules

[CHUNK_TAG: nid_circular_006 | topic:data_update_rules | source:nid_circulars]

The Citizens Data Update (CDU) system has been rolled out at the district level to allow correction of erroneous NID records. Rules:

- Only ONE correction allowed per visit — multiple simultaneous corrections are not permitted.
- Documents must be presented as proof (citizenship, event registration, passport, pension document).
- Only the incorrect specific field should be corrected.
- Do not re-upload citizenship and other documents unnecessarily.
- Verify the correct information before entering it into the system.
