If your NID card is lost, damaged, destroyed, or otherwise unusable, you can apply for a duplicate card (replacement).

- Submit a written application (Nibedan) at the District Administration Office (DAO) or Area Administration Office (AAO) that has an NID data registration station.
- State the reason for the replacement (lost, damaged, etc.).
- The office will verify your records and issue a replacement NID card.

- Submit an application at the District Administration Office (DAO) or Area Administration Office (AAO) with an NID data registration station.

4. Cancellation Process for Dual Citizenship Holders

[CHUNK_TAG: nid_replace_004 | topic:dual_citizenship_cancellation | source:cancellation]

Citizens who have obtained dual citizenship must have their NID cancelled. The process at the DAO/AAO enrollment station:

1. NIN Consultation: Verify the citizen's valid NIN status — check if NIN is active or already cancelled.
2. If NIN is active (valid): No update needed for the current NID — proceed to cancellation.
3. If cancelled citizenship + card in 'Create Status' (not yet printed): Citizen can re-enroll using the valid citizenship via 'Citizen Data Update Before Personalization'.
4. If cancelled citizenship + NIN issued + card printed: Citizen re-enrolls using valid citizenship, then the previously issued NID card is cancelled by District Authority order, and a replacement card is issued via 'NID Card Replacement'.
5. If cancelled citizenship + NIN issued + card NOT printed: Cancel the printed card by District Authority order, then re-enroll via 'NID Card Request After Card Rejection'.
6. All remarks during enrollment must include the dual citizenship details as a mandatory note.

Required documents to attach in NIDMIS for this process:
